Your relief is our mission. Proper Daily Dosing and ample time for the Phytocannabinoids & Terpenes to build up to optimal levels are the 2 most important factors when taking Hemp Lively Products. For best results, please reference the chart below. Phytocannabinoids such as CBD, CBC, CBG & THC take several weeks to build up in your system so take it daily and give it time to work.

HHC = Hydrogenated THC

Hemp Lively’s HHC (Hexahydrocannabinol) aka “Hydrogenated THC” Gummies are yet another alternative to THC. HHC is a naturally occurring cannabinoid found in hemp seeds and pollen. In studies done on rats, HHC showed signs that it may provide higher relief than THC. If THC has worked well for you, try HHC gummies.
